Contents

Volume 59 • 1989

Spring

Editorial 3
A new chapter for The Angle Orthodontist
David L. Turpin, DDS, MSD

Feature Article 5
Stability of maxillary surgery in openbite versus nonopenbite malocclusions
Timothy Denison, DMD, MSD; Vincent G. Kokich, DDS, MSD; and Peter A. Shapiro, DDS, MSD

Original Articles
Force systems from an ideal arch — large deflection considerations 11
Herbert A. Koenig, BME, MSME, PhD; and Charles J. Burstone, DDS, MS

Lower anterior face height and lip incompetence do not predict nasal airway obstruction 17
Dale V. Hartgerink, DDS, MS; and Peter S. Vig, DDS, PhD

Force distribution comparisons of various retraction archwires 25
S.J. Chaconas, DDS, MS; A.A. Caputo, MS, PhD; and K. Miyashita, DDS

Mandibular rotation and lower face height indicators 31
Joseph Ghafari, DCD, DMD; Ilana Brin, DMD; and Mary Beth Kelley, DMD

Correlations among craniofacial angles and dimensions in Class I and Class II malocclusions 37
Donald Anderson, DDS, MScD; and Frank Popovich, DDS, MScD

Rotational effects of SN on the dentoskeletal pattern within the range of normal 43
Omar A. Sarhan, BDS, PhD

Aligning, leveling and torque control — a pilot study 51
George F. Andreasen, DDS, MSD; and Reid M. Amborn, DMD, MS

"Orthodontistry" and dental occlusion in Etruscans 61
Robert S. Corruccini, PhD; and Elsa Pacciani, PhD

Case Report 65
Case Report EG—The presence of fibrous dysplasia affects the treatment approach for a 28-year-old female patient

Special Article 69
A little house in Pasadena
Normal Wahl, DDS, MS

In Memory 77

Summer

Editorial 83
Communicating new ideas in new ways
David L. Turpin, DDS, MSD

Feature Article 85
Induced condylar growth in a patient with hemifacial microsomia
Ross Kaplan, BDS, MSD

Original Articles
Mandibular form and position related to changed mode of breathing — a five year longitudinal study 91
W. John S. Kerr, MDS, D Orth, RCS (England), FFD, RCS (Ireland), FDS, RCS (Edinburgh); John S. McWilliam, BDS, DDS, PhD; and Sten Linder-Aronson, DDS, PhD

The role of cluster analysis on traditional cephalometric dimensions 97
M. Finkelstein, BDS, MSc; C.L.B. Lavelle, DSc, PhD; and T. Hassard, PhD

Compensatory developmental interactions in the size of permanent teeth in three contemporary populations 107
Samir E. Bishara, BDS, DDS, D Ortho and Jane R. Jakobsen, BS, MA

Circumpubertal growth spurt related to vertical dysplasia 113
Surender K. Nanda, DMD, MS and Todd K. Rowe, DMD, MPH

Identification of the cephalometric reference point condylion on lateral headfilms 123
Carl-Magnus Forsberg and Lars Odenrick

A comparative study of Southern Chinese and British Caucasian cephalometric standards 131
Michael S. Cooke, BChD, PhD and Stephen H.Y. Wei, DDS, MS, MSD

Selected cephalometric angular norms in Kikuyu children 139
Sunil Kapila, BDS, MS

Special Article 145
Mentors: a continuum in orthodontic education
Robert J. Manasse, DDS

Case Report 155
Case VT — An adult patient with a bilateral posterior crossbite characterized by maxillary deficiency

Fall

Editorial 163
Professional response to scientific betrayal
David L. Turpin, DDS, MSD

Feature Article 165
The physiology of splint therapy: a literature review
Roger P. Boero, DDS

Original Articles
Occlusal contacts following orthodontic treatment: a follow-up study 181
Yan Razdolsky, BSD, DDS;
Cyril Sadowsky, BDS, MS; and
Ellen A. BeGole, PhD
Commentary by Richard P. McLaughlin, DDS

Mandibular condyle morphology in relation to malocclusions in children 187
Gerald Tadej, DDS, MS;
Christer Engstrom, DDS, Odont Dr;
Helene Borrman, DDS, Odont Dr; and
Edwin L. Christiansen, DDS

A comparative cephalometric investigation of the Greek craniofacial pattern through 4,000 years 195
Evangelos Argyropoulos, DMD, MDS;
Viken Sassouni, DFMP, DDS, MSc, DSC; and
Dr. Anna Xeniotou

Space closure in adult patients using the segmented arch technique 205
Clemens Manhartsberger, DDS, MD;
John Y. Morton, BS; and
Charles J. Burstone, DDS, MS

A comparison of the accuracy of cephalometric landmark location between two screen/film combinations 211
D.R. Stirrups, BA, BDS, FDS, DOrth, FDS, DDOrth

An evaluation of the relationship between rest position of the mandible and malocclusion 217
Thomas P. Sperry, DDS, MS, MSD

Special Article 227
"It was a fantastic experience"
Some reflections on the early years of graduate orthodontics at the University of Illinois, 1930-1935
Norman Wahl, DDS, MS

Case Report 233
Case Report KH — Juvenile rheumatoid arthritis: a 14-year posttreatment evaluation
David L. Turpin, DDS, MSD

In Memory 239

Winter

Editorial 243
Readers' contributions to *The Angle Orthodontist* welcome
David L. Turpin, DDS, MSD

Letters 245

Feature Article 247
Rigid endosseous implants for orthopedic anchorage
W. Eugene Roberts, DDS, PhD;
Frank R. Helm, DMD; Keith J. Marshall, DDS; and
Richard K. Gongloff, DMD

Original articles
Maxillonasal dysplasia, mandibular retrognathia and cleft palate 257
Peter Mossey, BDS, FDS, MOrth, FFD; and
John Sandham, BDS, FDS, DOrth, PhD
Commentary by Leslie A. Will, DMD, MSD 262

Skeletal changes associated with extraoral appliance therapy: an evaluation of 200 consecutively treated cases 263
Paul R. Boecler, DMD, MS;
Michael L. Riolo, DDS, MS;
Stephen D. Keeling, DDS, MS; and
Thomas R. TenHave, MPH

Tooth transpositions — a review of the literature and treatment considerations 271
Yehoshua Shapira, DMD and
Mladen M. Kuftinec, DStom, DMD, ScD

A study of incidence and etiology of midline diastemas in a population in South India (Madras) 277
S.M. Hashim Nainar, BDS and
N. Gnanasundaram, MDS

The stability of anatomical and centroid reference points in cephalometric analysis 283
Michael J. Trenouth, BDS, MDS, PhD

The effect of mandibular first premolar extraction on third molar space 291
Margaret E. Richardson, MDentSc, DOrth

Ambiguities of Angle's classification 295
Donald J. Rinchuse, DMD, MS, MDS, PhD and
Daniel J. Rinchuse, DMD, MS, MDS, PhD

Special Article 299
"It was a fantastic experience" Part II
Norman Wahl, DDS, MS

Case Report 305
Case Report CB — Surgical vs nonsurgical treatment in the nongrowing patient
Roy Gunsolus, DDS

In Memory 311
